Asphyxia
Newborn rat growth, behavior 120
Weight & anatomical rat development 120
Atrophy
Oral epithelium rat 455
Baboon
Longitudinal record, Olive 445
Longitudinal record, Savannah 425
Olive 445
Papio cynocephalus anubis 445
Savannah 425, 445
Skin folds on age 445
Bandicoot
Litter size & growth 221
Behavioral development
Newborn rat & asphyxia 120
Biphasic diameter
Cellular, rat 331
Blastoderm
Chick embryo, hemoglobin inhibition 434
Blattella Germanica
(See Cockroach)
Body composition
Broiler chicken 269
Cattle, Angus 29
Chicken 44
Dietary fat & sugar, rat 415
Hybrid mice & age 138
Japanese Quail 16
Obese rat 415
Body weight
Aging & nutrition in mice 138
Bone
(See Skeleton)
Cardiomegaly
Nutrition and stress 483
Cartilage
Nutrition 473
Cattle
Angus 354
Body Composition (Angus) 29
Charolais (doubled-muscled) 466
Collagen solubility 466
Steers, Angus 29
Steers, Hereford 499, 515
Cell
Biphasic diameter distribution 331
Cell death
Drosophila melanogaster 86
Chick embryo
Glycogen body 385
Chicken
Blastoderm Hemoglobin 434
Body composition 44, 269
Dwarfism 59
Fat deposition 269
Gene, dw 59
Glycogen body 385
Growth curves 44

White Mountain 44, 269
Child
Age 0.5-5 years 93
Age 7-14 years 370
Dutch 370
Physical correlation, age 0.5-5yrs 93
Sex differences in growth 93
Skin folds, age 7-14 years 370
U.S. Negro & Nigerian comparisons 176
Urban/rural comparisons—Nigeria 176
Chloramphenicol
Chick embryo 434
Hemoglobin inhibition 434
Cockroach
Gradient of growth 278
Larval development 278
Tibia/Femur growth 278
Collagen solubility
Nutrition & cattle 466
Compensatory growth
Lung, after pneumonectomy 297
Cortisol biokinetics
Gestational duration in sheep 198
Coturnix Japonica
(See Japanese-quail)
Cross-fostering
Genetic, pig 209
Curves, reference
Child skin folds, age 7-14 years 370
Diet
(See Nutrition)
Diethylstilbesterol (DES) 515
Dorset-Suffolk hybrid
(See Sheep)
Drosophila melanogaster
Aging 86
Cell death 86
Longevity 86
Duroc
(See Pig)
Dwarfism
Gene, dw on T3, T4, & chicken growth 59
Growth hormone 59
Mouse, Snell 101
Thyroid hormones 59
Endocrine
(See Hormone)
Enzyme
Hepatic, citrate, malic chicken 59
Ethnic groups, Nigerian
Growth comparisons 176
Evolution of ontogeny
Genetic & environmental correlation 339
Exercise
Age, heart, vasculature in rats 148
Fasting
Refeeding heifers 354
Fat depletion
(See also Leanness)
Backfat layers in pig 321

Page

Fat deposition
(See also Obesity)
Backfat layers in pig 321
Chicken 269
Mice 138
Fat, dietary
Body composition, rat 415
Feed efficiency
Body composition 138
Mathematical formula 234
Nutritional restrictions 234
Production costs 234
Femur/Tibia ratio
In Cockroach 278
Fetal decapitation, pig
Hormones, thyroid, and adrenal 158
Fetal sheep
Protein synthesis 391
Fetal teeth
Human, deciduous 74
Fetus
Maternal alcohol consumption 35
Muscle growth & alcohol 35
Pig 1
Finnish sheep
(See Sheep)
Foetus
(See Fetus)
Food intake
Voluntary in rat, obesity 415
Gastrointestinal tract
Protein synthesis—sheep 309
Gene, dw
Dwarfism 59
Genetic correlation
Environment & ontogeny 339
Genotype
Gestational duration in sheep 198
Gestational duration
Sheep genotypes 198
Glycogen body
Chick embryo, innervation 385
Gradient of growth
Cockroach 278
Growth
Cartilage, horse 473
Gradients 278
Litter size in Bandicoot 221
Physical correlations in children 93
Urban/rural comparisons—Nigeria 176
Growth curves
Chicken 44
For irregular observations 187
Polynomial models 187
Randomized tests 187
Growth promotants
Anabolic 515
Growth rate
Chicken 269
Steer 499
Heart
Anemia, postnatal 483
Exercise & age on vasculature, rat 148
Nutrition & stress 483
Heifer
Fasting & refeeding 354
Inoculation 354
Lactic acid 354
Hemoglobin
Chick blastoderm 434
Chloramphenicol inhibition 434
